

City of Bellmead Contracts and Procurement Activities 5-Year View of Authorized Amount vs. Actual Spend

Totals include Council Authorization items for both construction and goods/services. City contracts are not restricted to match the fiscal year, so the spend amount in the listed fiscal year may not reflect the total contract spend, which can occur over multiple years. While this graph shows purchases/contracts authorized by Council city-wide for that year, the City Finance Department is also responsible for all purchasing that does not require Council authorization (purchases less than \$100,000 as of 09/30/2025), and those authorizations and spend totals are not captured in this graph.
